

SENTINEL-AI: CYBER FORENSIC REPORT

Advanced Threat Intelligence & Pattern Recognition Analysis

STEP 1: Target Identification

Target Input: google.com.security-update.xyz

Forensic ID: SENT-FB8AF8E2

Scan Timestamp: 2026-05-11 19:49:03

STEP 2: Risk Scoring & Metrics

AI Risk Score: 100/100

Threat Verdict: BLOCKED (CRITICAL THREAT)

STEP 3: Forensic Detection Steps

The Sentinel-AI engine performed a multi-layer heuristic scan on the provided input. The following malicious patterns were identified:

- [1] DETECTED: Deceptive Subdomain Trick: Attempting to impersonate a trusted brand
- [2] DETECTED: Phishing Domain Keywords Detected (Social Engineering Pattern)

Conclusion: Based on the identified patterns (Obfuscation, SQLi, or Deceptive Links), this input is classified as **BLOCKED (CRITICAL THREAT)**. Access has been restricted to prevent potential system compromise.
